

DIVERSITY CLUB

COME AS YOU ARE

Through sharing information, furthering dialogues, and encouraging an appreciation for the diversity present in our school family, the club aims to help form students who are better prepared to contribute meaningfully to our ever more globalized community. In doing so, members hope to create a more tolerant school, city, nation, and world.

Did you know?

The Diversity Club was founded in 2013 by Hartley students as a student-led initiative to help raise awareness and foster appreciation for the many backgrounds represented in our student body, the surrounding community, and our nation.

BISHOP
HARTLEY

Many of the themes addressed by Diversity Club align with nationwide celebrations of diversity including; National Hispanic Heritage Month, Black History Month, Women’s History Month, and Asian and Pacific Islander Heritage Month, to name just a few.

Student members are able to bring their ideas to the table every month for how to best address the theme, whether it be a social gathering with food and games or a series of non-fiction article discussions aimed at broadening our knowledge of a particular culture.
