

CARE FOR CREATION

Care for Creation is a student organization that aims to make Bishop Hartley a more environmentally friendly place.

Following the guidelines of Pope Francis in *Laudato Si*, we strive to care for the creation around us. Through research, learning opportunities, and service, we work to lead our school community to an eco-friendly future.

"I love Care For Creation because it focuses on strengthening our relationship with Christ through the appreciation of His Creation."

- Grace Mashensic

We welcome all new members!
