

# PRO-LIFE CLUB

The mission statement of the Bishop Hartley Pro-Life Club is to do everything in our power to protect and respect all life from conception until natural death through the education of those in our community, the power of prayer, and active participation in pro-life events. Students gain an understanding of how to live out Catholic social teaching and Christian values.

---

The club participates in and supports a number of activities and organizations including Lobby Day, March for Life, Ohio March for Life, Women's Care Center, Day of Silent Solidarity and the Office of Social Concerns for the Columbus Diocese.

This club is open to any student who values life from conception to natural death and wishes to help build a society with these same principles.
